Objective

Certified Full Stack Web Developer with a demonstrated history of time management and team management. Experience with working as a team on GitHub and Heroku to create and deploy applications. Adaptable to every situation.

Education

University of Washington,
Seattle, WA
Earned a certificate in full stack web development.

Seattle Central College,
Seattle, WA
Completed 30 credits towards a AS degree in nursing. Fields of study include chemistry, English, math, and anatomy and physiology.

Projects

Find a Hike
Repository: https://github.com/Jessica264365/Find-A-Hike
Deployed: https://jessica264365.github.io/Find-A-Hike/
A hike locator application. Users enter a location and information is displayed on hikes in that area using multiple APIs and ajax calls. The information includes a brief description, pictures, and trail length. Hikes can be saved for later.

Eat the Burger
Repository: https://github.com/Jessica264365/Eat-The-Burger
Deployed: https://frozen-ravine-20884.herokuapp.com/
This is a burger logging application that demonstrates the use of ORM utilization, Handlebars, MySQL, Node, and Express. When a burger is added by the user it is saved in a MySQL database until it is "devoured".

Technical Skills & Methodologies

JavaScript | CSS | HTML5 | React | Node | Bootstrap | Express | MongoDB | MySQL | Handlebars | OOP | ORM | MVC | GitHub | Heroku

Experience

Team Lead, Uptown Espresso *Seattle, WA*
November 2013 – Present

Responsible for the daily operations of the café. Kept track of monthly waste, inventory and weekly ordering. Lead a team of baristas and assigned daily task. Stayed with the company while it was acquired by a new owner. Acclimated to every new situation and was the first team lead promoted because of it.
